

Divine

Full Stack Developer, DevOps

I'm a passionate full stack developer based in Paris region, driven by curiosity, creativity, and a love for building things that matter. Whether it's crafting intuitive user interfaces, solving complex backend challenges, or turning ideas into elegant digital experiences, I thrive at the intersection of logic and imagination.

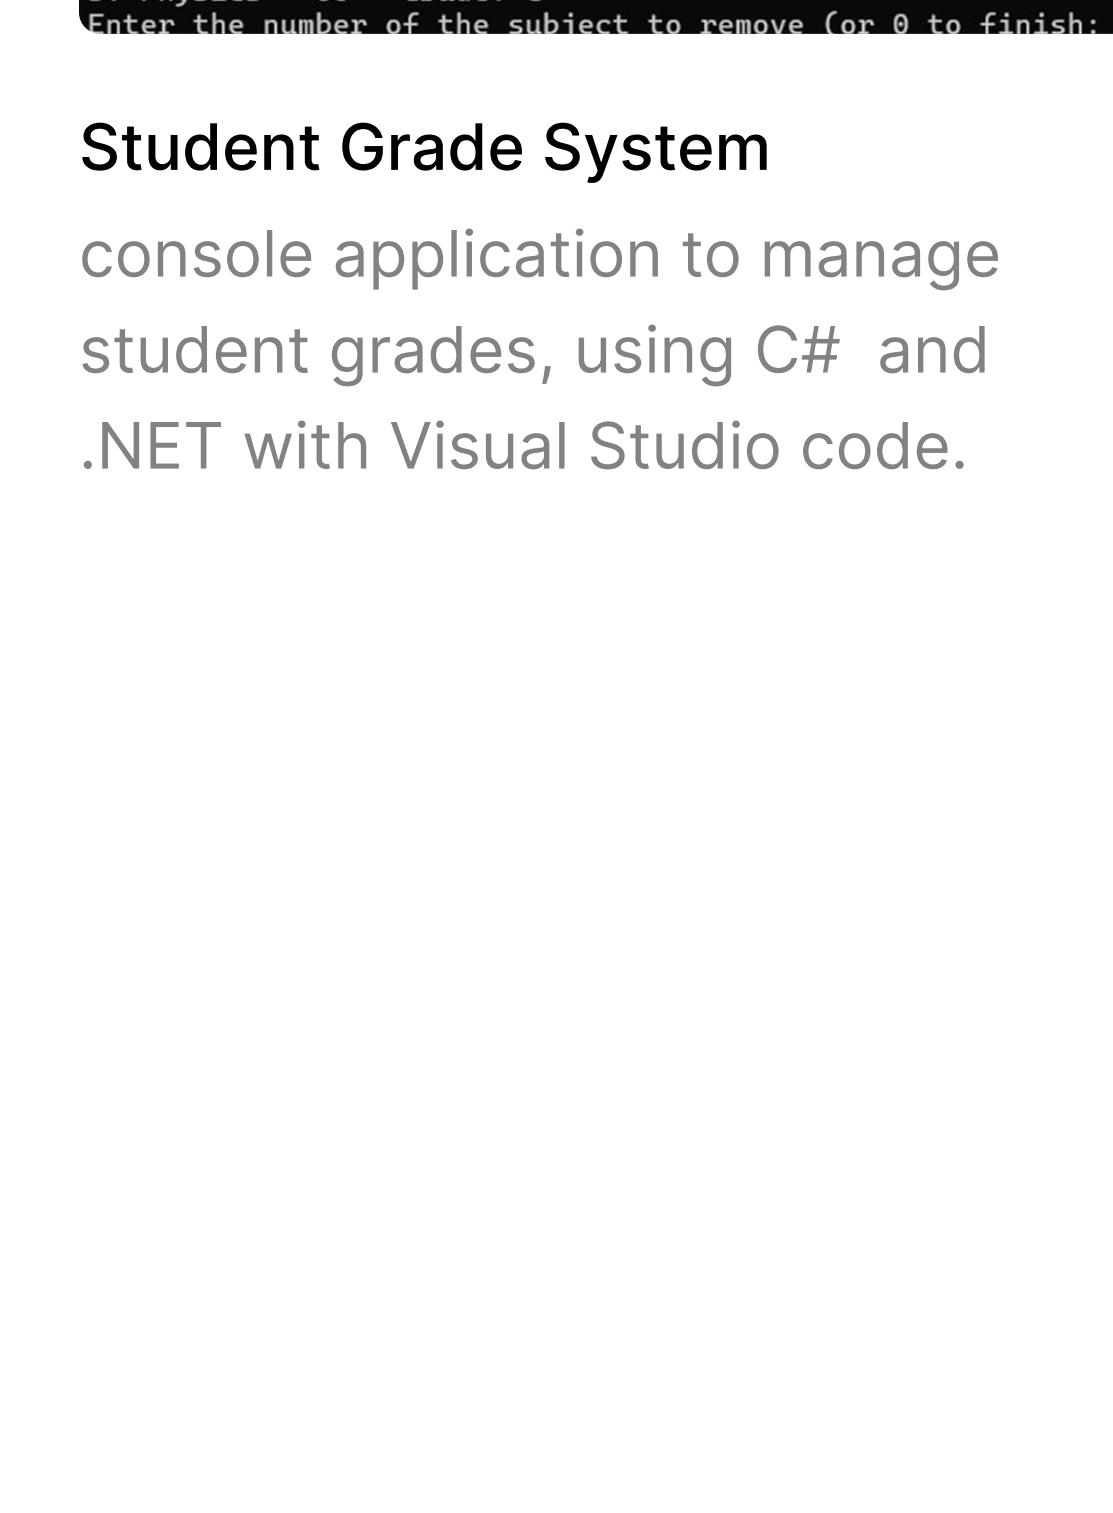

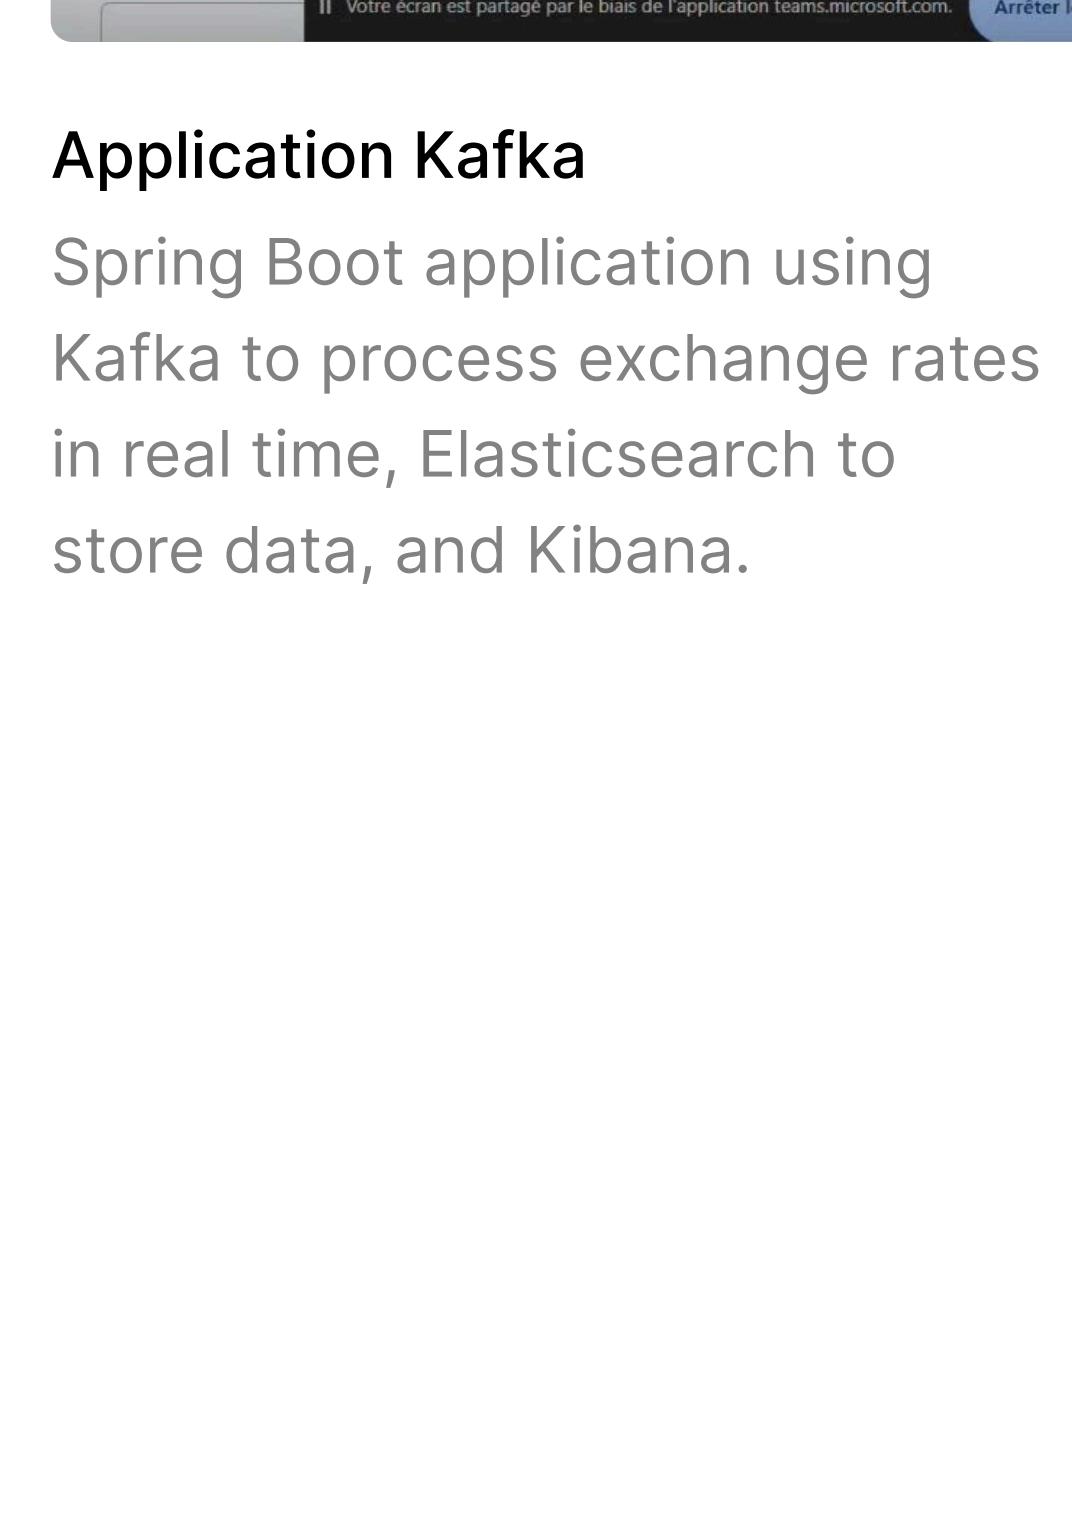

With a strong foundation in JavaScript, Python, Java, Figma, SQL, I enjoy working on projects that challenge me to grow and collaborate. I believe in clean code, thoughtful design, and meaningful impact. This portfolio showcases some of my favorite projects, experiments, and collaborations. Feel free to explore, and don't hesitate to reach out.

Portfolio

Online Plant Shop

Built with React and Redux Toolkit, this application demonstrates modern front-end development practices
